LTS. 011/2568

9 April 2025

Topic: Report on the progress of the acquisition of assets by Light Up Total Solution Public Company Limited regarding the subsidiary's investment in purchasing GPU machines (amendment to revenue recognition).

Dear: Director and Manager of the Stock Exchange of Thailand

Reference LTS. 001/2568 regarding the acquisition of assets by Light Up Total Solution Public Company Limited related to its subsidiary's investment in purchasing 8 additional GPU machines. Initially, it was expected to start providing services and recognizing revenue within the 4th quarter of 2024. However, due to the need for careful selection of contracting companies and thorough data verification for accuracy and transparency, there has been a delay in selecting the contracting companies. Therefore, the company will start providing services and recognizing revenue within the 1st quarter of 2025.

The company Light Up Total Solutions Public Company Limited has undertaken the procurement and installation of servers to support the LLM Training system, with a delivery and activation schedule according to the planned timeline. However, during the server validation process, which is a crucial step to ensure that the servers can operate effectively and safely with the customer's system, delays have occurred due to uncontrollable external factors.

The reasons for the delay are:

1. The delay in preparing data from the client's side, which is necessary for system integration testing.
2. The server validation process by the manufacturer is delayed due to the conditions of the readiness test, resulting in the process taking longer than scheduled.
3. The team needs to adjust the delivery plan to ensure that the server has passed all inspections before actual use, for the long-term stability and reliability of the system.

The company would like to clarify that we have been closely monitoring the progress and coordinating with all relevant parties to expedite the operations so that the servers can be delivered as soon as possible. The company remains committed to the principles of quality, safety, and readiness to provide system services according to the established standards.

LIGHT UP TOTAL SOLUTION PUBLIC COMPANY LIMITED

1252/1 5th Floor, Pattanakan Road Suan Luang Sub-district

Suan Luang District, Bangkok 10250 Tel: 02 -1171553-4

The company will expedite the testing of the GPU systems of all 8 machines as quickly as possible in order to deliver them to CMKL University for use in data storage and artificial intelligence (AI) services. This will allow the company to start providing services and recognizing revenue. The company expects to begin providing services and recognizing revenue in the second quarter of 2025.

Sincerely

(Mr. Kittipong Vimolnoch)

Deputy Chief Executive Officer
