The establishment of the subsidiary falls under the category of asset acquisition by the company, as defined in the Capital Market Supervisory Board's Notification No. Tor Jor 20/2551 regarding the criteria for significant transactions that constitute the acquisition or disposal of assets (including amendments) and the Stock Exchange of Thailand's Notification regarding the disclosure and practices of listed companies in the acquisition or disposal of assets. 2004 (including amendments) (collectively referred to as the "Acquisition or Disposal Announcement"), with the maximum transaction size being 0.11% and 0.10% respectively, based on the total value of consideration. This is calculated using the maximum acquisition transaction size from the Company's consolidated financial statements audited and reviewed by a certified public accountant as of June 30, 2025. This is considered an acquisition of assets with a transaction size less than 15%, and therefore does not meet the disclosure criteria under the Acquisition or Disposal of Assets Announcement. When considering the Company's asset acquisition transactions over the past 6 months, the total acquisition transaction size is 0.21% (the maximum transaction size based on the total value of consideration). Therefore, entering into this transaction does not fall under the disclosure requirements of the Acquisition or Disposal of Assets Announcement.

The acquisition of the company's assets, calculated based on the size of the transaction over the past 3 months, is as follows:
